- Relevant Course: Educational Psychology, Educational Science, Evaluation of Study and Learning, Curriculum Studies, Performance Technology, Learning Theory and Instructional, Learning of Media, Intractive Multimedia Development, Digital Learning Innovation, 2D & 3D Animation, Teaching Skills and Microlearning, Development of AudioVisual Media.

Experience

Interactive Game-Based Training Program

May 2026

Training Designer and Speaker Canva AI Training for Early Childhood Teachers

- Designed and facilitated interactive game-based training activities using Canva AI for kindergarten teachers to support early childhood learning media development;
- Developed engaging learning approaches through interactive games and virtual simulations to enhance participant involvement and learning experiences;
- Supported training implementation, participant coordination, and learning activity facilitation during the program.

Internal Broadcasting Training

May 2026

Speaker OBS Studio Internal Training

- Conducting internal training sessions on OBS Studio to support broadcast and live streaming activities.
- Guiding participants in managing TV/Videotron displays, Zoom sessions, and YouTube live streaming operations.
- Enhancing participants' digital and technical communication skills through hands-on training activities.

From Campus to Career – Internship Preparation Program

May 2026

Training and Development From Campus to Career

- Assisted in organizing career preparation training programs focused on CV writing, portfolio development, and interview preparation;
- Coordinated participant management, event preparation, and training implementation to ensure effective program execution;
- Supported the preparation of administrative documents, including Terms of Reference (TOR), activity concepts, and program planning materials.

TP Trainers x HMPTP 3D Animation Training

Apr 2026

Training of Trainer (TOT) – 3D Animation

- Designed and facilitated Training of Trainer (TOT) sessions on basic 3D animation using Blender.
- Prepared participants with foundational animation skills to support educational media development.
- Collaborated with teams to organize learning materials and ensure effective training implementation.

TP Skill Lab – Exploring 3D Animation for Learning Media Development

Apr 2026

3D Animation Training Assistance

- Assisted in training sessions related to 3D design and animation using Blender for educational media development.
- Facilitated participant learning during hands-on practical activities and collaborative projects.
- Supported the implementation of engaging and interactive learning environments during training sessions.

Academic Growth Series – Smart Strategies for SINTA & Scopus Publication

Mar 2026

Academic Event Leadership

- Led and coordinated committee divisions to ensure structured and effective event implementation.
- Managed team communication, operational planning, and event execution aligned with objectives and timelines.
- Strengthened leadership, coordination, and problem-solving skills through cross-functional collaboration.

Project

Educational Film Production – “Waktu”	Mar 2026 - May 2026
Educational Film Producer	
- Coordinated educational film production activities to ensure execution aligned with concepts and project timelines. - Collaborated with production teams to maintain effective communication and workflow coordination. - Supported structured project implementation to ensure efficient educational media production.	
Plant Growth Process AR Learning Media	Mar 2026 - May 2026
Augmented Reality (AR) Learning Media Development	
- Developed 3D models and animations using Blender to support interactive learning experiences. - Designed Augmented Reality (AR) learning media using Assemblr for science learning activities. - Contributed to engaging and technology-based educational content development.	
2D Animation-Based Learning Media on Bullying Awareness – "Hari ini aku bicara"	Feb 2026 - Mar 2026
Educational Animation Development	
- Developed educational 2D animation content focused on bullying awareness topics. - Contributed as an animator, video editor, and storyline developer throughout the media production process. - Supported the creation of engaging and communicative learning experiences through digital media.	
Indonesian Language Audio Learning Media (SPOK Materials)	Feb 2026 – Mar 2026
Audio Learning Media Development	
- Designed interactive learning content flows and audio narration to improve learning engagement. - Developed educational audio materials to support student understanding and instructional effectiveness. - Contributed to communicative and learner-centered instructional content development.	
Construct 2 Interactive Educational Game - "Move and Groove"	Aug 2025 – Dec 2025
Multimedia Interactive Learning Media Development	
- Designed and developed interactive educational games using Construct 2 for elementary school science learning. - Facilitated learning activities and guided students during interactive implementation sessions. - Evaluated student responses and learning outcomes to support effective game-based learning experiences.	

Organization and Work Experiences

TP Trainers Community	Feb 2026 - Present
Training and Development Staff	
- Developed training materials, learning modules, and presentation content aligned with educational and training objectives. - Coordinated training implementation, including facilitator support, participant management, and activity preparation to ensure effective program execution. - Conducted monitoring and evaluation of training activities to support continuous learning and competency improvement. - Prepared event administrative documents, including Terms of Reference (TOR), training concepts, and activity planning documents for organizational programs.	
PT Siantar Putra Mandiri - Mojokerto	May 2025 - Aug 2025
Quality Control	
- Conduct routine product quality inspections to ensure that production outcomes consistently meet company standards, while maintaining attention to detail and process accuracy. - Monitor production activities and collaborate with cross-functional teams to identify potential defects early on, thereby strengthening problem-solving and communication skills in a dynamic work environment. - Systematically document and report quality findings, which contribute to process improvements, team coordination, and clear operational efficiency as well as follow-up actions.
